5. The Power to Enhance

Scenarios:

1. One person simply needs more money per month to make ends meet.
2. One family needs strategies to help its members to get along better.
3. One community is suffering, due to the upcoming closure of a major manufacturing plant and the loss of hundreds of jobs.
4. One part of the world has experienced a major calamity and the needs of the people are vast.
5. A naturally occurring drought is producing water shortages in many areas.

Question:

How can Christ flow in these situations to promote the power of enhancement?
